"A" is equal to the lower of (i) and (ii), where:

(i) is the aggregate of the "LTV Adjusted Principal Balance" of each Mortgage Loan in the Eligible Cover Pool as at any given date, calculated as the lower of:

(1) the actual Outstanding Principal Balance of the relevant Mortgage Loan in the Eligible Cover Pool as at the last day of the immediately preceding Calculation Period; and

(2) the Latest Valuation relating to that Mortgage Loan as at such date multiplied by M (where M is equal to (a) 80 per cent for all Mortgage Loans that are up to three months In Arrears or not In Arrears, (b) 40 per cent for all Mortgage Loans that are more than three months In Arrears but are not yet Non Performing Loans and (c) zero for all Non Performing Loans (including any unsecured loans in respect of which a default pursuant to article 178 of the CRR has occurred)), minus

the aggregate of the following deemed reductions to the aggregate LTV Adjusted Principal Balance of the Mortgage Loans in the Eligible Cover Pool if any of the following occurred during the immediately preceding Calculation Period:

(a) a Mortgage Loan was, during the immediately preceding Calculation Period, in breach of the representations and warranties contained in the relevant Warranty and Indemnity Agreement and the relevant Seller has not indemnified the Guarantor or otherwise cured such breach, to the extent required by the terms of the relevant Warranty and Indemnity Agreement (any such Mortgage Loan an "Affected Loan"). In this event, the aggregate LTV Adjusted Principal Balance of the Mortgage Loans in the Eligible Cover Pool (as calculated on the last day of the immediately preceding Calculation Period) will be deemed to be reduced by an amount equal to the LTV Adjusted Principal Balance of the relevant Affected Loans (as calculated on the last day of the immediately preceding Calculation Period); and/or

(b) the relevant Seller, in any preceding Calculation Period, was in breach of any other material representation and warranty under the relevant Master Transfer Agreement and/or the Servicer was, in any preceding Calculation Period, in breach of a material term of the Servicing Agreement. In this event, the aggregate LTV Adjusted Principal Balance of the Mortgage Loans in the Eligible Cover Pool (as calculated on the last day of the immediately preceding Calculation Period) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Guarantor in the immediately preceding Calculation Period in respect of such Mortgage Loan (such financial loss to be calculated by the Calculation Agent without double counting with the reduction under (A) above and to be set off against any amount paid (in cash or in kind) to the Guarantor by the relevant Seller and/or the Servicer to indemnify the Guarantor for such financial loss) (any such loss a "Breach Related Loss"); and/or

(c) the relevant borrower has requested a suspension of payment pursuant to the applicable legislation and regulations (norma tiva primaria e secondaria), including any order, decree or any other decision issued by the judiciary authority (autorità giudiziaria) or administrative authority (autorità amministrativa) or any other competent authority, or to the schemes with the relevant associations (accordi con le associazioni di categoria), including without limitation the scheme named "Accordo per il Credito 2015" between the Associazione Bancaria Italiana and the associations of enterprises for suspension of the debts of small and medium enterprises, according to Italian law No. 190/2014, and the scheme named "Accordo per la sospensione del credito alle famiglie" between the Associazione Bancaria Italiana and the associations of consumer clients dated 31 March 2015 as amended and supplemented, during the suspension period (any such Mortgage Loan a "Renegotiated Loan"). In this event, the aggregate LTV Adjusted Principal Balance of the Mortgage Loans in the Eligible Cover Pool (as calculated on the last day of the immediately preceding Calculation Period) will be deemed to be reduced by an amount equal to the LTV Adjusted Principal Balance, as calculated in (i) above, of each Renegotiated Loan multiplied by M (where M is equal to (a) zero for all Renegotiated Loans in respect of which, as at such date, payments have a residual suspension period of less than 91 days, (b) 50 per cent for all Renegotiated Loans in respect of which, as at such date, payments have a residual suspension period of more than 90 days but less than 181 days and (c) 100 per cent. for all Renegotiated Loans in respect of which, as at such date, payments have a residual suspension period of more than 180 days);

AND

(ii) is the aggregate "Asset Percentage Adjusted Principal Balance" of the Mortgage Loans in the Eligible Cover Pool as at any given date which in relation to each Mortgage Loan shall be calculated as the lower of (1) the actual Outstanding Principal Balance of the relevant Mortgage Loan as calculated on the last day of the immediately preceding Calculation Period, and (2) the Latest Valuation relating to that Mortgage Loan as at such date multiplied by N (where N is equal to (a) 100 per cent. for all Mortgage Loans that are less than three months In Arrears or not In Arrears, (b) 40 per cent for Mortgage Loans that are more than three months In Arrears but are not yet Non Performing Loans and (c) zero for all Non Performing Loans), minus

the aggregate sum of (1) the Asset Percentage Adjusted Principal Balance of any Affected Loan(s), calculated as described in item (i)(a) above and/or (2) any Breach Related Losses, calculated as described in item (i)(b) above, calculated as described in item (i)(c) above,

the result of which multiplied by the Asset Percentage.
